HOW TO LAUNCH YOUR ixi

OR

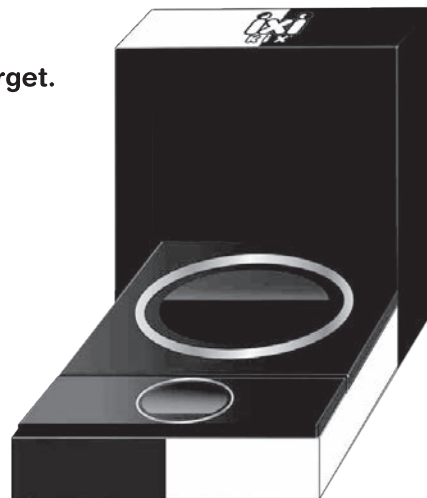

Use one of these styles to launch your ixi or use your own style!

GAME RULES

2-PLAYER GAME

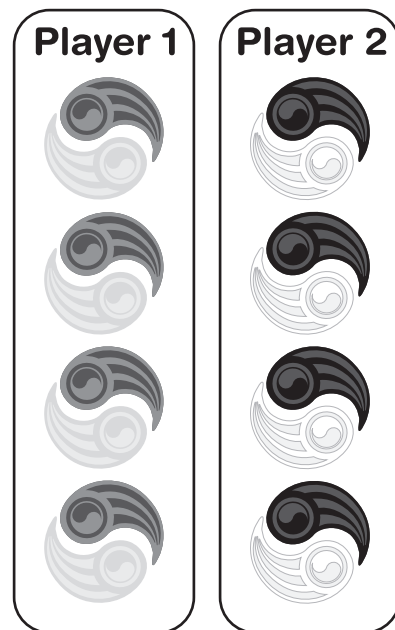

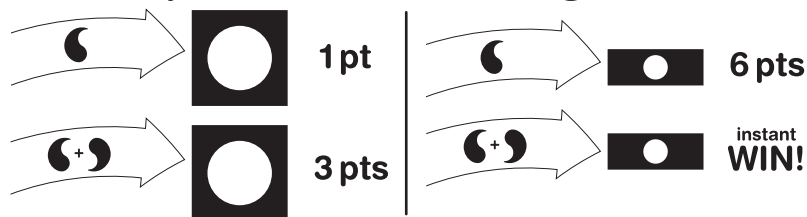

- Set up game per diagram and choose the distance to place the target.
- Each player chooses 4 of the same light color ixi and 4 of the same dark color ixi to form 4 pairs.
- The game is played in rounds in which each player gets 1 turn.
- On their turn, a player launches each of the 2 ixis, always starting with the light color ixi.
- Players score 1 point for each ixi in the **LARGER** target hole - except if they land both ixis in a row, scoring them 3 points.
- If the player lands their ixi in the **SMALLER** target hole, they score 6 points!
- If your ixi lands on the box next to the target hole, but during play gets knocked into the hole - you score the point value of the hole.
- If the player lands both the light and dark ixi of the same pair in the **SMALLER** target hole, they **win - game over!**
- The first player to score 12 points or more wins.

3-4 PLAYER GAME

- Each player picks 4 ixis of the same color and tries to score 12 points or more to win, following the scoring rules below.

12 points to WIN the game!

Easy to play. Hard to master.
